

Name of the Lab:

Soil Mechanics

Location:

L1-G block

Lab Facilities (Experimental set-ups and Equipments):

- **Automated Direct Shear Test Apparatus**
- **Automated Consolidation Test Apparatus**
- **Plastic & Liquid Test Apparatus**
- **Permeability Test Apparatus**
- **Oven**
- **Apparatus for the determination of physical properties of soil**

Direct Shear Test Apparatus

Consolidation Test Apparatus

Plastic & Liquid Limit Test

Permeability Test Apparatus

Oven

Sieve Analysis Test

Specific Gravity Test Apparatus

Name of the Lab:

Concrete Lab

Location:

L1-G block

Lab Facilities (Experimental set-ups and Equipment):

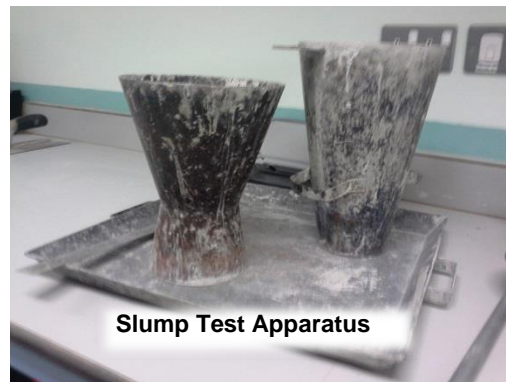

- **Curing Tank**
- **Compression Machine**
- **Slump Test Apparatus**
- **Mixture Apparatus**
- **Specific Gravity Test Apparatus**

Curing Tank

Compression Machine

Slump Test Apparatus

Mixture Apparatus

Specific Gravity Test

Name of the Lab:

Surveying Lab

Location:

1st floor-G block

Lab Facilities (Experimental set-ups and Equipment):

Total Station

Automatic Level

Tape

GPS

Planimeter
